**MARE ISLAND, SECTION 205**  
VALLEJO, CALIFORNIA

CONGRESSIONAL DISTRICT: 7<sup>th</sup> District, Rep. George Miller

STUDY DESCRIPTION: This study was conducted under Section 205, Flood Control Act of 1948 (PL 80-858), investigating the need for protection of flood-prone areas on Mare Island, a Base Realignment and Closure site that is being developed for post-military reuse purposes.

FISCAL YEAR 03 BUDGET: \$0

POSSIBLE SOLUTIONS:

PRESENT STATUS: FY01 funding was used to conduct an initial site investigation/evaluation. Given the lack of existing development in the flood prone area, the initial evaluation indicates there is no Federal interest in proceeding with a flood control project at this time. There have been several meetings with the city of Vallejo to explain the current lack of a Federal interest. FY02 funds will be used to complete the study recommending no Federal interest.

FUTURE EFFORTS: No efforts in the near future are anticipated given the lack of Federal interest.
